

## Friday Night Icebreaker - Telastory!

1. Everyone should find 2 items around them. One item should say something about yourself, and the other can be completely random. These two items will be incorporated into the telling of a fictional story.
2. Start with whoever was born the closest to September 25th and begin telling a fictional story. Find a creative way to weave your two items into the story. The next person will have to **continue the story** by adding details and incorporating their two items! Popcorn around. Take at least 30 seconds during your turn.
3. After everyone has added to the story and the story is complete, go around and guess which item (of the 2) is the one that describes each person. Tell us why that item describes you.
